VISION

We shall build on our core competencies and achieve excellence in performance to become a leading producer of best quality sugar. In doing so we aim to meet or accede the expectations of all our stakeholders.

Our goal is not only to attain technological advancements in the field of sugar but also to inculcate the most efficient, ethical and time tested business practices in our management.

Furthermore, we shall strive to innovate the ways for the improvement and increase in per acre yield of sugarcane and introduce improved varieties of sugarcane having better yield characters, high sucrose contents, disease and drought resistant and better ratooning crop in the region. We shall introduce the mechanized sugarcane cultivation method to the growers and to educate regarding latest developments of agriculture technology and free consultancy of professionals.

MISSION

We aim to be a leading producer and supplier of quality sugar by adopting the most technological advancement. We intend to play a pivotal role in the economic development of Pakistan.

CORPORATE STRATEGY

The company strives to become a leading producer of high-quality sugar by leveraging core competencies, adopting advanced technologies, and maintaining ethical, efficient practices. It focuses on operational excellence through optimized production, quality assurance, and collaboration with growers by providing education, professional consultancy, and mechanized farming techniques to enhance agricultural productivity.

Through innovation, the company invests in R&D to introduce high-yield, disease-resistant sugarcane varieties and modernize farming methods for sustainable growth. Environmental sustainability is prioritized with eco-friendly practices like water conservation and waste-to-energy systems, while contributing to Pakistan's economic development through job creation and exports.

A structured roadmap guides short-term efficiency gains, medium-term R&D expansion, and long-term sustainability and market leadership. Progress is monitored with key performance indicators, ensuring adaptability and alignment with strategic goals, delivering stakeholder value, and driving national agricultural and economic progress.

CORE VALUES

- ✿ Strive for excellence and build on our core competencies.
- ✿ Keep up with technological advancements in our biological control laboratory and extend the Research & Development Programme to control sugarcane crop diseases.
- ✿ Inculcate efficient, ethical and time tested business practices in our management.
- ✿ Work as a team and support each other.
- ✿ Put the interest of the company before that of the individuals.

STATEMENT OF MATERIAL FACTS UNDER SECTION 134 (3) OF THE COMPANIES ACT 2017

This statement sets out the material facts pertaining to the special businesses to be transacted at the 72nd Annual General Meeting (AGM) of The Thal Industries Corporation Limited to be held on Saturday January 24, 2026 at 14:00 Hours at Registered office at 23-Pir Khurshid Colony, Multan and through electronically video link/ Zoom application.

STATEMENT U/S 134(3) OF THE COMPANIES ACT, 2017

All transactions with associated company were carried out during the year, therefore, these transactions have been placed before the shareholders of the Company for their approval.

a) Agenda Item No. 5 of Notice of AGM: Ratification and Approval of Related Party Transactions:

The Company is and shall be conducting transactions of sales and purchase of goods with the Naubahar Bottling Company (Pvt.) Limited, Baba Farid Sugar Mills Limited, and Almoiz Industries Limited for the period commencing from October 1st, 2024 to period ends September 30, 2025 are entered into by the company in the normal course of business. The prices, terms and conditions agreed between the companies are based on Arm Length Basis under Related Party Transactions Policy of the Company. The directors of the company have no interest whatsoever both directly or indirectly except for common directorship. Record consisting of details of all the transactions along with all supporting documents is maintained as per legal requirements and available in the registered office of the company.

Nature and amount of Transactions along with applicable pricing policy are detailed below:

Names	Nature of Transactions	Transactions during the period Amount (PKR)	Pricing Policy
Naubahar Bottling Company (Pvt.) Limited	Sale of goods	14,267,682,813	As per approved contract between TICL & NBC, Related Party Transactions Policy and approval of shareholders in AGM.
Baba Farid Sugar Mills Limited	Sale of goods Purchase of goods	9,230,000 -	As per approved contract between TICL & BFSML, Related Party Transactions Policy and approval of the shareholders in AGM.
Almoiz Industries Limited	Sale of goods Purchase of goods	561,057,968 126,276,565	As per approved contract between TICL & AIL, Related Party Transactions Policy and approval of shareholders in AGM.
Mr. Muhammad Shamim Khan	Purchase of land	1,500,000,000	As per approved Transaction in EOGM

The transactions with NBC, BFSML and AIL could not be approved by the board in financial statements during the fiscal year 2025 due to common directorship on the Board and unavailability of the required quorum in the meetings of the Board. The following seven directors are interested/concerned in the related party transactions due to common directorship and/or relationships amongst common Directors; (i) Mr. Muhammad Shamim Khan (ii) Mrs. Qaiser Shamim Khan (iii) Mr. Adnan Ahmed Khan (iv) Mr. Nauman Ahmed Khan (v) Mr. Muhammad Khan (vi) Mrs. Farrah Khan (vii) Mrs. Sarah Hajra Khan.

The Board decided to place all the above related party transactions concluded during the fiscal year 2025 before the shareholders in AGM for ratification and approval.

b) Authorization for the Board of Directors to approval related party transactions during the financial year ended Sep. 30, 2025

The Company is and shall be conducting transactions of sale and purchase of goods with NBC, BFSML & AIL during the financial year ending Sep. 30, 2025 and subsequently, in the ordinary course of business and at Arm's Length Basis as per the approved policy with respect to transactions with related parties in the normal course of business, and therefore, all the future transactions with NBC, BFSML & AIL shall be approved by the Board of Directors on quarterly basis. Considering the interests/concerns of seven out of ten Directors due to their common directorship and /or relationship with Directors of NBC, BFSML & AIL, the related parties' transactions of the fiscal year 2025 are suggested to be placed before the shareholders.

The Company shall continue to carry out transactions with the related parties in the ordinary course of business till next the Annual General Meeting. The nature and scope of such related party transactions are explained above in the statement of relevant agenda item. Therefore, such transactions with related parties have to be approved by the shareholders. The shareholders may authorize the Chief Executive or his nominee to approve such transactions till the next Annual General Meeting for their formal approval/rectification.

There is no specific interest of the directors in these special resolutions, except that mentioned above.e.

This report provides insights into our financial performance, operational dynamics, and the Board's strategic alignment with the Company's goals, corporate objectives, vision, and mission.

ECONOMIC LAND SCAPE

The Pakistani economy continues to face substantial challenges in FY2025 due to the global economic slowdown, persistent inflationary pressure, and devastating floods. However, timely and effective policy interventions facilitated a moderate recovery in FY2025. Despite fiscal consolidation, monetary tightening, geopolitical tensions, and persistently high inflation, Pakistan's real GDP grew by 2.68% in FY2025. This positive shift was supported by prudent policy management, the resumption of financial inflows from multilateral and bilateral partners, and recovery in major trading partners.

The agriculture sector grew by 0.56% in FY2025, supported by growth in livestock, fisheries and forestry. However, sugarcane production registered a modest decline of 3.88% to 84.24

million tonnes due to adverse weather condition and impact of pest attack mostly in the flood region and maize production fell by 15.4% to 8.24 million tonnes, partly due to reduced sowing area. The industrial and service sectors posted modest growth rates of 4.77% and 2.91% each, underscoring the challenges of a constrained economic environment.

GDP at current market prices reached Rs 114,692 billion, reflecting a 9.1% increase over the previous year. Per capita income rose to USD 1,824 from USD 1,662, driven by improved economic activity and stable exchange rate. The investment-to-GDP ratio increased to 13.8% from 13.1%, supported by better public and private capital formation.

SECTORAL PERFORMANCE

In the agriculture sector, key crops exhibited a downward trajectory:

- Cotton production decrease by 30.7% to 7.08 million bales.
- Rice production reduces by 1.38% to 9.72 million tonnes.
- Wheat output decline by 8.9% to 28.98 million tonnes.

sugarcane cultivation area Increased by 1.1%. Despite the slight expansion in the area sugar production decline as compared to previous year due to adverse weather conditions.

Globally, economic growth decelerated, particularly in advanced economies, as contractionary monetary policies aimed to curb inflation. These dynamics impacted Pakistan's industrial sector, including the sugar industry, which faced a 3.88% decline in production due to adverse environmental conditions.

COMPANY PERFORMANCE

The Thal Industries Corporation Limited experienced a 57% growth in gross sales, reaching to Rs 59.14 billion from Rs 33.59 billion in the prior year. This expansion increases net profit to Rs 2.33 billion from Rs 1.14 billion, and Earnings per Share (EPS) reached to Rs 154.99 from Rs 75.61.

The Board maintained strong governance standards in accordance with the Companies Act, 2017, and

the Code of Corporate Governance. Key initiatives included:

- Approving policies and budgets.
- Establishing robust internal controls.
- Sanctioning financial results and major investments.
- Supervising financial reporting processes through the Audit Committee.

The Board's proactive approach ensured timely decision-making and transparent communication with stakeholders.

STRATEGIC OUTLOOK

As we navigate a challenging business environment, the Board remains committed to guiding the Management in implementing necessary adjustments for sustainability and growth. Our strategic priorities include:

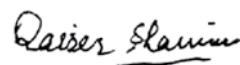

- Expanding manufacturing capabilities.
- Strengthening research and development.
- Enhancing operational efficiencies and cost controls.
- Diversifying our portfolio and fostering strong customer relationships.

We are confident in the resilience of our team and our ability to overcome challenges. By leveraging our expertise and focusing on value creation, we aim to strengthen our competitive position and achieve long-term success.

ACKNOWLEDGEMENT

I extend my heartfelt gratitude to our dedicated executives, officers, staff, and workers for their unwavering commitment. I also thank government officials, financial institutions, suppliers, and shareholders for their continued support. Together, we look forward to building a prosperous future.

With best Regards,

Mrs. Qaiser Shamim Khan

DIRECTOR'S REPORT TO THE MEMBERS

The Directors of your Company are pleased to present the 72nd Annual Report along with the audited financial statements and the auditor's report for the financial year ended September 30, 2025.

INDUSTRY OVERVIEW

Sugarcane continues to be a foundational pillar of Pakistan's agricultural economy, with the sugar sector recognized as the second-largest agro based industry after textiles. According to recent data, the sector contributes approximately 3.5% to the agricultural value addition. On a national scale, the sugar industry accounts for approximately 0.8% of Pakistan's GDP.

The sugarcane crop witnessed decline in production primarily due to adverse weather conditions and impact of pest attack mostly in the flood region. While modern cultivation techniques helped mitigate some of these impacts, sugarcane yield per acre declined by an estimated 3.4% during the season.

As part of initial step towards deregulation of sugar industry, the provincial government did not notify official support prices for sugar cane during the season, allowing market forces to dictate sugarcane pricing. The company purchased sugarcane at an average rate of PKR 430 per maund.

PERFORMANCE OF THE COMPANY

The company successfully processed 2,501,854.655 metric tons of sugarcane during the fiscal year ending September 30, 2025, producing 241,471.300 metric tons of white refined sugar with an average recovery rate of 9.655%. This represents a decline compared to the previous year of 2,701,533.490 metric tons of sugarcane crushed, yielding 260,695.850 metric tons of white refined sugar at an average recovery rate of 9.655%. While recovery rate remained consistent compared to last year, the volume of sugarcane crushed declined by approximately 7.4%, primarily due to reduced sugarcane availability during the current crushing season.

FINANCIAL HIGHLIGHTS

For the fiscal year ended September 30, 2025, the Company delivered strong financial results, reporting a pretax profit of Rs. 3,118.861 million and an after-tax profit of Rs. 2,328.497 million. This performance reflects a substantial improvement compared to the previous year's pretax profit of Rs. 1,068.812 million and after-tax profit of Rs. 1,135.970 million.

The significant growth in profitability was primarily driven by higher sales volumes and an improvement in the average selling price during the year. In addition, the substantial reduction in financial due to reduction in benchmark interest rates from 22% to 11% since January 2025, further contributing to the overall increase in earnings.

The Company reported net sales of Rs. 48,226.080 million for the fiscal year, reflecting a robust 68.56% increase compared to Rs. 28,611.252 million in the previous year. This was mainly due to 15% less sugar production in the country as compared to last year and was the primary driving force for the higher sales volumes and an increase in the average selling price. The improvement in pricing was supported by the Government's decision to permit sugar exports, enabling the Company to benefit from the premium available in the market.

The company is committed to improving production and profitability through enhanced process efficiencies, adoption of modern technologies, and stringent cost management. Initiatives include the introduction of advanced equipment, close monitoring to reduce production costs, and the promotion of high-quality sugarcane cultivation. By providing growers with access to improved seed varieties, fertilizers, and pesticides, along with ongoing support, the company aims to achieve higher sugar recovery rates and deliver financial benefits to cane growers.

DIVIDEND

Your Board has recommended 100% (2024: 25%) cash dividend for the financial year that ended 30, September 2025.

RISK MITIGATION

The Board of Directors, Board's Audit Committee, and Steering Committee comprising of the senior management team led by the Chief Executive Officer are responsible for oversight of Company's operations and to evolve proactive strategies to mitigate any potential adverse impact of major risks.

CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base to maintain investors, creditors, and market confidence and to safeguard its ability to continue as a going concern. The Company manages its capital structure and makes appropriate adjustments to move with economic changes and the risks associated with safeguarding its asset base. Your Company's management believes in maintaining an appropriate debt-equity ratio and optimal mix of long and short-term debts.

RESEARCH AND DEVELOPMENT

Agricultural R&D is an integral part of the Company's policy which entails identification and multiplication of promising new sugarcane varieties and their subsequent commercial sowing through progressive growers with best agricultural practices. This not only

increases per acre yield of sugar cane but also enhances growers earning and creates more enthusiasm for sowing sugarcane compared to competing crops. It also increases the sugarcane supply to the Company and boosts overall sugar recovery, directly improving the bottom line of the company.

Like previous years, your management is committed to providing new improved varieties of sugarcane seed with high yield/recovery and disease/frost resistance along with fertilizers and pesticides to cane growers on credit basis as well as free of cost timely services of biological laboratory at their door step so that sugarcane procurement for the next crushing season may not suffer.

FUTURE OUT LOOK

In the ongoing crushing season, preliminary assessments indicates that the sugarcane crop size will be higher as compared to the previous year, hence increased sugar production in the country may put pressure on the sugar prices. The Government has granted sugar mills greater autonomy in determining cane procurement prices. As a result, the average procurement price for the season will be finalized upon completion of the crushing cycle, based on market dynamics and prevailing cane supply conditions.

Government's primary focus is on ensuring a stable domestic market and preventing price shocks, however the domestic sugar market is expected to remain supply-surplus position, unless there is any unexpected change in estimate later on in per acre yields. The Government has shifted its policy stance toward prioritizing local market availability, with measures aimed at stabilizing prices and ensuring adequate supply across the country.

The State Bank of Pakistan (SBP) has maintained the policy rate at 11% since January 2025, providing some relief to the industry by improving cash flows and supporting profitability. Nevertheless, ongoing inflationary pressures are expected to increase operating costs, requiring the Company to exercise prudent financial management and implement strategic measures to sustain operations. Looking ahead, key determinants of profitability will include cane procurement costs, recovery rates, and sugar prices. Furthermore, evolving global economic conditions and geopolitical developments are likely to influence the domestic economy, which may impact market dynamics and operational performance in the coming year.

RELATED PARTIES DISCLOSURE

The transactions between the related parties were carried out at arm's length prices determined in accordance with the comparable uncontrolled market prices method. The Company has fully complied with the best practices on transfer pricing.

ڈائریکٹر کی ممبران کو روپرٹ

آپ کی کمپنی کے ڈائریکٹر 30 ستمبر 2025 کو ختم ہونے والے مالی سال کے لئے 72 دینی سال کے مطابق اور ملکی معاہدہ حسابات اور اس پر آڈیٹر کی روپرٹ جو کمپنی کی مالیں اور مالی معاہدے کے مطابق ہوں گے۔

صنعت کا جمیع جائزہ

گئے کی نصیل پاکستان کی زرعی صنعت کا ایک بنیادی ستوں ہے، جبکہ شوگر سکٹر کو بھی شامل کے بعد دوسری بڑی زرعی بنیادوں پر قائم صنعت کے طور پر تسلیم کیا جاتا ہے۔ حالیہ اعداد و شمار کے مطابق، یہ شعبہ زرعی و بیویا نیشن میں اقتصادی قوتی 3.5 فیصد اور قومی سطح پر، شوگر انٹری پاکستان کی جمیع قومی پیداوار (GDP) میں اقتصادی 0.8 فیصد حصہ رکھتی ہے۔

گئے کی نصیل کی پیداوار میں کمی بنا دی طور پر ناموافق موقی حالات اور کمیوں کے حملوں، جو زیادہ تر سلاب زدہ علاقوں میں ہوئے، کے اثرات کے باعث دیکھنے میں آئی۔ اگرچہ جدید کاشتکاری ٹکنیکوں نے ان اثرات کو کم کرنے میں مدد دی، تاہم اس بیزن کے دوران میں اکیلہ گئے کی پیداوار میں اندماز 3.4 فیصد کی واقع ہوئی۔

شوگر انٹری کے ڈی ریگیٹریشن کی جانب ابتدائی قدم کے طور پر، صوبائی حکومت نے اس بیزن کے دوران میں کمی کی اعلان نہیں کیا، جس کے نتیجے میں مارکیٹ فورس کو گئے کی قیمت کے تین کی اجازت دی گئی۔ کمپنی نے گناہ اسٹا 430 روپے فی کن کے حساب سے خریدا۔

کمپنی کی کارکردگی

30 ستمبر 2025 کو ختم ہونے والے سال کے دوران، کمپنی نے 2,501,854.655 میلر کن گئے کی کریٹ کی اور 9.655 فیصد اوسط ریکوری کے ساتھ 241,471.300 میلر کن سفید ریکارڈ چینی بنائی۔ جبکہ اس کے مقابلے میں گذشتہ سال 2,701,533.490 میلر کن گئے کی کریٹ کی اور 9.655 فیصد اوسط ریکوری کے ساتھ 260,695.850 میلر کن سفید ریکارڈ چینی بنائی۔ اگرچہ ریکوری ریٹ گذشتہ سال کے مقابلے میں ملکیم رہا، تاہم موجودہ کریٹ بیزن کے دوران میں کمی کی دستیابی میں کمی کے باعث کریٹ کی گئے کی مقدار میں اقتصادی 7.4 فیصد کی واقع ہوئی۔

مالی جملکاریاں

30 ستمبر 2025 کو ختم ہونے والے سال کے لئے، کمپنی نے مصبوط مالی متابع فراہم کئے، قابل ارجیکس منافع 118.861 میلیون روپے اور بعد از ارجیکس منافع 2,328.497 میلیون روپے کیا۔ یہ کارکردگی گذشتہ سال قابل ارجیکس منافع 1,068.812 میلیون روپے اور بعد از ارجیکس منافع 1,135.970 میلیون روپے کے مقابلے کافی بہتری کی عکاسی کرتی ہے۔

منافع میں نمایاں اضافہ بنیادی طور پر فروخت کے زیادہ جم اور سال کے دوران اوسط فروخت قیمتیوں میں اضافہ کی وجہ سے تھا۔ جزیدہ براہم، کمپنی کو جنوری 2025 سے شاہراک ائریسٹ ریٹ 22 فیصد تا 11 فیصد تک کمی کی وجہ سے مالی اخراجات میں نمایاں کمی ہوئی۔ ان عوامل نے جمیع طور پر آدمی میں اضافہ میں اہم کردار ادا کیا۔

کمپنی نے مالی سال کے دوران 48,226.080 میلیون روپے کی خالص فروخت درج کی، جو گذشتہ سال کی 28,611.252 میلیون روپے کی فروخت کے مقابلے میں 68.56 فیصد کے نمایاں اضافے کو ظاہر کرتی ہے۔ یہ اضافہ بنیادی طور پر ملک میں گذشتہ سال کے مقابلے میں چینی کی پیداوار میں 15 فیصد کی کمی کے باعث ہوا، جو زیادہ فروخت کے جم اور اوسط فروختی قیمت میں اضافہ کا اہم سبب ہے۔ حکومت کے چینی کی برآمدات کی اجازت دینے کے نتیجے سے بھی قیمتیوں میں بہتری کو تقتیت ملی، جس کے نتیجے میں کمپنی کی دستیاب پریمیم سے فائدہ اٹھانے میں کامیاب رہی۔

کمپنی بہتر عمل کی کارکردگی، جدید ٹکنیکاں کو جیسا کہ کاشتکاری کی کاشت کو فروخت دینا شامل ہے۔ کاشتکاروں کو کمی کی بہتر اقسام، کھادوں اور کیڑے مارو دا اون تک رسائی فراہم کرنے کے ساتھ ساتھ ملکی معادلات کے ذریعے کمپنی کا مقصد چینی کی ریکوری کی بلند شرح حاصل کرنا اور گئے کاشتکاروں کو مالی فوائد فراہم کرنا ہے۔

خطرے کی تخفیف

بورڈ آف ڈائریکٹرز، بورڈ کی آڈٹ کمیٹی، اور چیف ایگزیکٹو فائسر کی قیادت میں سینکڑیج ٹائم پر مشتمل اسٹریٹ گیمی کمپنی کے آپ شیئرز کی گرانی اور بڑے خطرات کے کسی بھی ممکنہ منفی اثرات کو کم کرنے کے لیے فعال حکمت عملی تیار کرنے کی ذمہ دار ہے۔

کپیٹل میخانست

کمپنی کی پالیسی سرمایہ کاروں، قرض دہنگان، اور مارکیٹ کے اعتماد کو برقرار کئے کے لیے ایک مغرب سرماۓ کی بنیاد کو برقرار رکھتا ہے اور ایک جاری تشویش کے طور پر جاری رہنے کی اپنی صلاحیت کی خانست کرتا ہے۔ کمپنی اپنے سرمائے کے ڈھانچے کا انتظام کرتی ہے اور معاشری تہذیبوں اور اس کے انتہائی بنیادی خانست سے وابستہ خطرات کے ساتھ آگے بڑھنے کے لیے مناسب ایجاد کرنے کے لیے۔ آپ کی کمپنی کی انتظامیہ مناسب قرض ایکوئی تااسب اور طویل اور مختصر مدت کے قرضوں کے بہترین مرکب کو برقرار کئے پر لعین رکھتی ہے۔

تحقیق و ترقی

زری تحقیق و ترقی کمپنی کی پالیسی کا ایک لازمی حصہ ہے جس میں بہترین زرعی طریقوں کے ساتھ ترقی پسند کا شکاروں کے ذریعے گئے کی خلاف اور نئی اقسام کی شناخت اور اس کے بعد تجارتی بیانے پر ان کی کاشت شامل ہے۔ یہ نہ صرف گئے کی فی ایک پیداوار بڑھاتی ہے بلکہ کا شکاروں کی آمدی میں اضافہ اور مسابقاتی فضلوں کے مقابلے میں گئے کی بوانی کے لئے زیادہ شوق پیدا کرتی ہے۔ یہ کمپنی کو منے کی سپلائی، جمیوی طور پر شوگر کی ریکوری کو بڑھاتی ہے اور برہار است کمپنی کے منافع کو بہتر بناتی ہے۔

گزشتہ سالوں کی طرح اس سال بھی آپ کی انتظامیہ نے سو دے بغیر قرض کی بیناد پر گئے کا شکاروں کو کھادا اور کیڑے مارا دیا ہے اور کھاد اور ارکیوری اور بیماری اور سودی کے خلاف مراحت کے حوالے گئے کے بھی کمی بہر اقسام فراہم کرنے کے ساتھ ساتھ ان کے قیتوں میں ہی جیاتی تجربہ گاہوں کی مدد سے بروقت مفت خدمات دینے کا فیصلہ کیا ہے تاکہ اگلے کریکٹ بیزن کے لئے گئے کے حصول میں دشواری نہ ہو۔

مستقبل کا نقطہ نظر

روان کریکٹ بیزن میں، سروے سے عیاں ہے کہ گئے کی فصل کا سائز بچھے سال کے مقابلے میں زیادہ ہو گا، لہذا ملک میں چینی کی زیادہ پیداوار اور چینی کی قیتوں پر دباؤ ڈال سکتی ہے۔ حکومت نے شوگر ملک کو گئے کی خریداری کی قیتوں کا قیمن کرنے کی زیادہ خود مختاری دی ہے۔ نتیجتاً، بیزن کے لئے مارکیٹ محرکات اور موجودہ گئے کی فراہمی کے حالات پر چینی، کریکٹ سائکل کے کمل ہونے پر اسلام خریداری قیتوں کو جنمی شکل دے دی جائے گی۔

حکومت کی بینادی توجہ ملکی مقامی منڈی کو تینی بناۓ اور قیتوں میں اچاک اتار چڑھا کر رکھنے پر مرکوز ہے، تاہم مقامی چینی کی مارکیٹ کی سپلائی کے لحاظ سے سرپاس پوزیشن میں رہنے کی توقع ہے، جب تک کرنی ایک پیداوار کے تجھیں میں بحداز اس کوئی غیر موقع تبدیلی نہ آجائے۔ حکومت نے اپنی پالیسی کا رخ مقامی منڈی میں دستیابی کو ترجیح دینے کی جانب موڑ دیا ہے، جس کے تحت قیتوں کو ملک کرنے اور ملک بھر میں مناسب رہ سکتی ہے تاکہ کیلے اقدامات کی چار ہے ہیں۔

اسٹیٹ بینک آف پاکستان (SBP) نے جوڑی 2025 سے پالیسی ریٹ 11 فیصد پر برقرار رکھا ہے، جس سے نقدی بہادیں بہتری اور منافع کی معاونت کے ذریعے صنعت کو پکھ ریلیف ملا ہے۔ تاہم، جاری مہنگائی کے دباؤ کے باعث آپرینٹنگ لائگت میں اضافے کی توقع ہے، جس کے لیے کمپنی کو حفاظت مالی انکھم و نسق اختیار کرنے اور آپرینٹنگ کو برقرار رکھنے کے لیے اسٹریٹجی اقدامات نادز کرنے کی ضرورت ہوگی۔ آئندہ عرصے میں منافعیت کے اہم تین کنڈگان میں گئے کی خریداری کی لائگت، ریکوری شرح اور چینی کی تیسیں شال ہوں گی۔ مزید برآں، عالمی معیشت کی بدلتی ہوئی صورت حال اور جغرافیائی سیاسی پیش رفتیں مقامی معیشت پر اثر انداز ہو سکتی ہیں، جس کے نتیجے میں آئندہ سال میں مارکیٹ کی محرکات اور آپرینٹنگ کا رکورڈی متاثر ہونے کا مکان ہے۔

متعلقہ پارٹیوں سے تعلقات

متعلقہ فریقوں کے درمیان لین دین مارکیٹ کی مقرر کردہ قیتوں کے مطابق طریقہ کار کے موازنے سے مقرر کردہ قابل رسائی قیتوں پر کیا جاتا ہے۔ کمپنی قیتوں کی منتقلی پر بہترین ضابطہ کے مطابق کمل ہوٹر پر عمل کرتی ہے۔

STATEMENT OF ETHICS & BUSINESS PRACTICES

After taking over of The Thal Industries Corporation Limited in 1998 the aim of the new management is to produce quality product for its customers. We ensure transparency and professionalism at every step of our dealings, and look after the interests of stakeholders. The statement of the company is based on the following principles.

Quality of Product:

- We would strive to produce the best quality / refined sugar for consumers.
- We would continuously update ourselves with technological advancements in sugar industry and strive to implement these changes in our company.
- We would maintain all relevant technical and professional standards to be compatible with requirements of the industry.

Dealing with Employees:

- We recognize and appreciate employees for their performance.
- We measure the performance of our employees by their ability to meet their objectives, their conduct at work, and their dealings with others both within and outside the organization, their contribution towards training peoples and successful planning, and innovation at their work place.
- We provide congenial work atmosphere where all employees are treated with respect and dignity and work as a team to achieve common objective.
- Unless specifically mentioned, all rules and regulations prevailing in the company apply to all levels of employees of the company.

Responsibility to Society / Interested Sectors:

We have an important role towards our society, shareholders, creditors and particularly to the sugarcane growers and the Government. Our dealings are transparent with all our customers / suppliers so as to meet the expectations of the people who deal with us.

We meet all our obligations and ensure timely compliance.

Financial Reporting & Internal Controls:

Our policies with reference to accounting, finance and corporate matters are governed by relevant corporate

regulations, Companies Act, 2017, and the Code of Corporate Governance. It is our responsibility to comply with International Financial Reporting Standards (IFRSs) as applicable in Pakistan for the preparation of financial statements with any departure therefrom being adequately disclosed.

We are in the process of establishing an efficient internal Audit department to enhance the scope of Internal control and data generated by the Company. It also helps in building the confidence of our creditors, financial institutions and other interested organizations.

Purchase of Goods & Timely Payment:

To ensure cost effectiveness, we only purchase goods and services that meet our specifications and are competitively priced. To gauge the market conditions and availability of substitute products or services, we obtain quotations from various sources before finalizing our decision, so as not to hurt the confidence, reliability and trust of our suppliers. We ensure timely payments after deducting applicable taxes.

Conflict of Interest:

Activities and involvements of the directors and employees of the company in no way conflict with the interest of the company. All acts and decisions of the management are based keeping in view of the interest of the company.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of The Thal Industries Corporation Limited

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of the Thal Industries Corporation Limited (the Company) for the year ended 30 September 2025 in accordance with the requirements of Regulation No. 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation

of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended 30 September 2025.

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **The Thal Industries Corporation Limited (the Company)**, which comprise the statement of financial position as at **30 September 2025**, and the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements including material accounting policy information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 September 2025 and of the profit and other

comprehensive loss, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matters:

Sr.No	Key audit matters	How the matter was addressed in our audit
1.	<p><u>Valuation of stock-in-trade</u></p> <p>Refer notes 4.6 and 18 to the financial statements.</p> <p>The stock-in-trade at 30 September 2025 amounted to Rs. 2,760 million. Given the relative size of the stock-in-trade with respect to the total assets, it was identified as key audit matter as it involves significant managements' judgment in determining the carrying value of stock-in-trade.</p>	<p>We assessed the appropriateness of management assumptions applied in calculating the value of stock-in-trade and validated the valuation by taking following steps:</p> <ul style="list-style-type: none"> assessing the appropriateness of the Company's accounting policy for valuation of stock-in-trade and compliance of the policy with IAS 2 "Inventories"; attending inventory count at the year-end and reconciling physical inventory with inventory lists provided to ensure completeness of data; assessing historical cost recorded in inventory valuation by checking purchase invoices on sample basis; obtaining an understanding of internal controls over valuation of stock-in-trade and testing, on a sample basis, their design, implementation and operating effectiveness; obtaining an understanding and assessing reasonableness of the management's determination of net realizable value (NRV) and the key estimates adopted, including future selling prices, and costs necessary to make the sales and their basis; testing on sample basis the NRV of finished goods and compare the NRV, to the cost of stock-in-trade to assess whether any adjustments are required to the value of stock-in-trade in accordance with the accounting policy.
2.	<p><u>Revenue recognition</u></p> <p>Refer notes 4.14 and 25 to the financial statements.</p> <p>The Company primarily generates revenue from the sale of white crystalline sugar along with its by-products and electricity. Net revenue from sale of the Company's products for the year ended 30 September 2025 amounted to Rs. 48,226 million.</p> <p>We identified revenue recognition as a key audit matter because it is one of the key performance indicators of the Company and gives rise to an inherent risk of misstatement to meet expectations or targets, consequently requiring significant time and audit efforts.</p>	<p>Our audit procedures in this area amongst others, included the following:</p> <ul style="list-style-type: none"> obtained an understanding of the process relating to recording of revenue and testing the design, implementation and operating effectiveness of relevant key internal controls over recording of revenue; assessed the appropriateness of the Company's accounting policy for recording of revenue and compliance of the policy with International Financial Reporting Standard - 15 (IFRS - 15) 'Revenue from Contracts with Customers'; compared a sample of sale transactions recorded during the year with sales orders, sales invoices, delivery orders and other relevant underlying documents; performed cut-off procedures on sales recorded before and after the reporting date to assess whether revenue was recognized in the correct accounting period; considered the adequacy of the disclosures in respect of revenue in accordance with the applicable financial reporting standards.

Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

[Report on Other Legal and Regulatory Requirements](#)

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980) was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that ordinance.

The engagement partner on the audit resulting in this independent auditors' report is Mr. Adnan Rasheed.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 September 2025

1. CORPORATE AND GENERAL INFORMATION

Reporting entity

The Thal Industries Corporation Limited (the Company) is a public limited company incorporated in Pakistan on 07 September 1953 under the Companies Act, 1913 (now the Companies Act, 2017) and is listed on Pakistan Stock Exchange. The Company is principally engaged in production and sale of refined sugar and its by-products.

Geographical locations and addresses of business units/ plants:

Purpose	Location	Address
Registered Office	Multan	23-Pir Khursid Colony Gulgasht , Multan
Head Office	Lahore	2-D-1 Gulberg III , Lahore
Mill Site Unit-1	Layyah	Layyah Sugar Mills , Layyah
Mill Site Unit-2	Chinniöt	Safina Sugar Mills , Lalian District Chinniöt

2. BASIS OF PREPARATION

2.1 Accounting convention

The financial statements have been prepared under the "Historical Cost Convention" except for recognition of staff retirement benefits which is based on actuarial values and financial instruments which are stated at fair value. The financial statements, except for cash flow information, have been prepared under the accrual basis of accounting.

2.2 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. Accounting and reporting standards applicable in Pakistan comprise of:

- IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of, directives and notifications issued under the Companies Act, 2017.

Where provisions of, directives and notifications issued under the Companies Act, 2017 differ from the IFRS Accounting Standards, the provisions of, directives and notifications issued under the Companies Act, 2017 have been followed.

2.3 Presentation

The financial statements are presented in Pak Rupee, which is also the Company's functional currency. Figures are rounded off to the nearest rupee. The corresponding figures are rearranged wherever necessary to facilitate comparison. Appropriate disclosure is given in relevant note in case of material rearrangements.

2.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of policies and reported amount of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

The areas where various assumptions and estimates are significant to the Company's financial statements or where judgments were exercised in application of accounting policies are as follows:

2.4.1 Useful lives and residual values of property, plant and equipment

The Company reviews the useful life and residual value of property, plant and equipment on regular basis to determine that expectations are not significantly changed from the previous estimates. Further, where applicable, an estimate of the recoverable amount of assets is made for possible impairment on an annual basis. In making these estimates, the Company uses the technical resources available with it. Any change in the estimates in the future might affect the carrying amount of respective item of property, plant and equipment, with corresponding effects on the depreciation/ amortization charge and impairment, if any.

2.4.2 Recoverable amount of non-financial assets and impairment

The management of the Company reviews carrying amounts of its non-financial assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

2.4.3 Stock-in-trade and stores, spare parts and loose tools

The Company reviews the net realizable value of items of stores, spare parts and loose tools and stock-in-trade to assess any possible impairment on annual basis. Net realizable value is estimated with reference to the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale. Any change in the estimates in the future might affect the carrying amount of respective item of store, spare parts and loose tools and stock-in-trade, with corresponding effects on the provision for impairment, if any.

2.4.4 Allowance for expected credit loss (ECL)

The allowance for ECL assessment requires a degree of estimation and judgement. It is based on the lifetime ECL grouped based on days overdue, and makes assumptions to allocate an overall ECL rate for each group. These assumptions include recent sales experience, historical collection rates and forward looking information for macro economic factors i.e. interest rates, inflation rates, unemployment rates, GDP rates etc.

2.4.5 Employees' retirement benefits

The calculation of the benefit requires assumptions to be made of future outcomes, the principal ones being in respect of increase in remuneration and the discount rate used to convert future

cash flows to current values. The assumptions used for the plan are determined by independent actuary on annual basis.

Gratuity cost primarily represents the increase in actuarial present value of the obligation for benefits earned on employee service during the year and the interest on the obligation in respect of employee service in previous years. Calculations are sensitive to changes in the underlying assumptions.

2.4.6 Provision for income taxes

The Company takes into account the current income tax law and decisions taken by appellate authorities while estimating its tax liabilities. Instances where the Company's views differ from the views taken by the income tax department at the assessment stage and where the Company considers that its views on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

2.4.7 Contingencies

The Company has disclosed significant contingent liabilities for the pending litigations and claims against it based on its judgment and the advice of the legal advisors for the estimated financial outcome. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized at the statement of financial position date. However, based on the best judgment of the Company and its legal advisors, the likely outcome of these litigations and claims is remote and there is no need to recognize any liability at the statement of financial position date.

3. INITIAL APPLICATION OF A STANDARD, AMENDMENT OR AN INTERPRETATION TO AN EXISTING STANDARD AND FORTHCOMING REQUIREMENTS

a) Standards and interpretations that became effective but are not relevant to the Company

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on 01 October 2024. However, these do not have any significant impact on the Company's financial statements except as disclosed in note 4 to these financial statements.

b) Forthcoming requirements not effective in current year and not considered relevant:

- IFRS 7 - Amendments Regarding the Classification and Measurement of Financial Instruments - (applicable on Annual periods beginning on or after 1 January 2026).
- IFRS 9 - Amendments Regarding the Classification and Measurement of Financial Instruments - (applicable on Annual periods beginning on or after 1 January 2026).
- IAS 21 - The Effects of Changes in Foreign Exchange Rates - (initial application on Annual periods beginning on or after 1 January 2026).
- IFRS 17 - Insurance Contracts - (initial application on Annual periods beginning on or after 1 January 2026).
- Annual improvements to IFRS 7, IFRS 9, IFRS 10 (Consolidated Financial Statements) and IAS 7 (Statement of Cashflows) initial application on Annual periods beginning on or after 1 January 2026).

Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

- IFRS 1 – First Time Adoption of International Financial Reporting Standards
- IFRIC 12 – Service Concession Arrangement
- IFRS 18 – Presentation and Disclosure in Financial Statements
- IFRS 19 – Subsidiaries without Public Accountability: Disclosures

4. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies set out below have been applied consistently to all periods presented in these financial statements.

4.1 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognized in the statement of profit or loss, except to the extent that it relates to items recognized directly in equity or in other comprehensive income, in which case it is recognized in equity or in other comprehensive income respectively. In making the estimates for income taxes currently payable by the Company, the management considers the current income tax law and the decisions of appellate authorities on certain issues in the past.

4.1.1 Current

The charge for current taxation is based on the taxable income for the year, determined in accordance with the prevailing law for taxation on income, using prevailing tax rates after taking into account tax credits and rebates available, if any. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

4.1.2 Deferred

Deferred tax is provided using the liability method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using the current rate of taxation. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax is charged and credited to income except in the case of items credited or charged to equity in which case it is included in equity.

4.1.3 Levies

Tax charged under the Income Tax Ordinance, 2001 which is not based on taxable income or any amount paid/ payable in excess of the calculation based on taxable income or any minimum tax which is not adjustable against future income tax liability is classified as levy in the statement of profit or loss and other comprehensive income as these levies fall under the scope of IFRIC 21/ IAS 37.

4.2 Property, plant and equipment

Operating tangible assets and depreciation

Operating tangible assets except freehold land are stated at cost less accumulated depreciation and impairment loss, if any. Freehold land is stated at cost.

Depreciation is charged by applying the reducing balance method over the estimated useful life of an asset at the rates specified in note 15.1.

Depreciation is charged on additions during the year from the month in which operating tangible asset becomes available for use while no depreciation is charged from the month of deletion/ disposal.

The useful life and depreciation method are reviewed to ensure that the method and period of depreciation charged during the year are consistent with the expected pattern of economic benefits from items of operating tangible assets. Appropriate adjustments are made if the impact of depreciation is significant.

Normal repairs are charged to the statement of profit or loss as and when incurred. Major renewals and improvements are capitalized and assets so replaced, if any, are retired.

Gains and losses on disposal of operating tangible assets are taken to the statement of profit or loss.

Capital work in progress

Capital work-in-progress is stated at cost less impairment loss, if any, and represents expenditure incurred during the construction and installation of property, plant and equipment. Costs may also include borrowing costs as stated in accounting policy for borrowing costs (Note 4.11). Transfers are made to relevant operating tangible assets category as and when assets are available for use.

4.3 Intangible assets

Intangible assets acquired by the Company are stated at cost less accumulated amortization and impairment loss, if any. Subsequent expenditure on capitalized intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditures are expensed as incurred.

Amortization is charged to the statement of profit or loss on a straight line basis over the estimated useful lives of intangible assets at the rates specified in note 16.1 unless such lives are indefinite. Amortization on additions to intangible assets is charged from month in which an item is acquired or capitalized while no amortization is charged from the month in which the item is disposed off.

4.4 Accounting for right-of-use (ROU) assets and leases

ROU asset

The Company recognizes a ROU asset and a lease liability at the lease commencement date. The ROU asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of the costs to be incurred to dismantle and remove the underlying asset or to restore the underlying asset or the site on which the asset is located.

The ROU asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of useful life of the ROU asset or the end of the lease term. The estimated useful life of ROU asset is determined on the same basis as those operating tangible assets. In addition, the ROU asset is periodically reduced by impairment loss, if any, and adjusted for certain remeasurements of the lease liability.

Lease liability

The lease liability is initially measured at the present value of the lease payments over the period of lease term and that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by the lease payment made. It is remeasured when there is a change in future lease payments arising from a change in rate or a change in the terms of the lease arrangement.

The Company applies judgment to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and ROU asset recognized.

Short term leases

The Company has elected not to recognize the ROU asset and lease liability for short term leases of properties that have a lease term of 12 months or less. The Company recognizes the lease payments associated with these leases as an expense.

4.5 Stores, spares parts and loose tools

These are valued at moving average cost except stores in transit which are stated at cost comprising invoice value plus other charges paid thereon up to the statement of financial position date. Adequate provision is made against items considered obsolete/ slow moving.

4.6 Stock-in-trade

These are valued applying the following basis:

Work in process	At cost
Finished goods	At lower of cost and net realizable value
Molasses	At net realizable value

Cost in relation to work in process and finished goods means production cost including all production overheads determined using average cost method. Net realizable value signifies the estimated selling price in ordinary course of business less cost necessary to be incurred in order to make the sale.

4.7 Short term investments

Investments in mutual funds are classified as financial assets at fair value through profit or loss (FVTPL). Such investments are initially recognized at cost and subsequently measured at fair value, with any resulting gains or losses recognized in the statement of profit or loss.

4.8 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, and other short term highly liquid investments with original maturities of three months or less. Short term finance facilities availed by the Company, which are payable on demand and form an integral part of the Company's cash management are included as part of cash and cash equivalents for the purpose of the statement of cash flows.

4.9 Staff retirement benefits

The Company operates an unfunded gratuity scheme (defined benefit plan) covering all permanent employees of the Company who have completed minimum qualifying period. Provisions are made annually to cover the obligation and charged to the statement of profit or loss, based on actuarial valuation by using the projected unit credit method. Actuarial gains and losses are recognized immediately in other comprehensive income and past service cost is recognized immediately to the statement of profit or loss. Interest cost and expected return on plan assets with a net interest amount that is calculated by applying the discount rate to the net defined benefit liability/ asset is also directly charged to the statement of profit or loss.

4.10 Provisions

Provisions are recognized in the statement of financial position when the Company has legal or constructive obligation as a result of past event, and it is probable that outflow of economic benefits

will be required to settle the obligation. However, provisions are reviewed at each statement of financial position date and adjusted to reflect current best estimate.

4.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized as an expense in the period in which these are incurred.

4.12 Contingencies

These are not accounted for in the financial statements unless these are actual liabilities and are only disclosed when:

- a) there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- b) there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

The assessment of contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Company, based on the availability of the latest information, estimates the value of contingent assets and liabilities which may differ on the occurrence/ non-occurrence of the uncertain future events.

4.13 Foreign currency transactions

Assets and liabilities in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the statement of financial position date, except those covered under forward exchange contracts which are stated at contracted rates. Foreign currency transactions are translated into Pak Rupees at the rates of exchange prevailing at the date of transaction except those covered by forward contracts, which are translated at contracted rates. All exchange differences are included in the statement of profit or loss.

4.14 Revenue recognition

Sales are recorded when significant risks and rewards (dispatch of goods to customer) of ownership of the goods are transferred to the customers.

Income from bank deposits, loans and advances is recognized on accrual basis.

4.15 Dividend

Dividend to the Company's shareholders is recognized as a liability in the period in which it is declared and approved. Appropriations of profit are reflected in the statement of changes in equity in the period in which such appropriations are approved.

4.16 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of shares outstanding during the year.

Diluted EPS is calculated by adjusting basic EPS by the weighted average number of shares that would be issued on conversion of all dilutive potential shares into ordinary shares and post tax effect

of changes in the statement of profit or loss attributable to shares of the Company that would result from conversion of all dilutive potential Company shares into ordinary shares.

4.17 Financial instruments

Recognition and measurement

Financial assets and liabilities are recognized, when the Company becomes a party to the contractual provisions of the instrument and derecognized when the Company loses control of the contractual rights to receive cash flows from the assets that comprise the financial asset or the rights have been transferred and the Company has transferred substantially all the risks and rewards of ownership or the enterprise loses control of the contractual rights that comprise financial assets or a portion of financial assets. In case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired.

Financial assets are long term investments, short term investments, trade and other receivables, advances adjustable in cash and cash and bank balances. The Company derecognizes a financial asset or a portion of financial asset when, and only when, the right to receive the cash flows from the assets has been expired or has been transferred; and the Company has transferred substantially all the risks and rewards of ownership or the Company loses control of the contractual rights that comprise the financial assets or a portion of financial assets.

The Company has classified its financial assets based on the requirements as set out in IFRS-9 'Financial Instruments'. IFRS 9 sets out the requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items and contains three principal classifications categories of financial assets: measured at amortized cost, fair value through other comprehensive income and fair value through profit or loss. The classification of financial assets is generally based on the business model in which the financial asset is managed and its contractual cash flow characteristics.

4.17.1 Financial assets

(a) Financial asset at amortized cost

A financial asset shall be measured at amortized cost if both of the following conditions are met:

- i)** The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and;
- ii)** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

(b) Financial asset at fair value through other comprehensive income (FVTOCI)

A financial asset shall be measured at FVTOCI if both of the following conditions are met:

- i)** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and;
- ii)** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

(c) Financial asset at FVTPL

A financial asset shall be measured at FVTPL unless it is measured at amortized cost or at FVTOCI. However, the company may make an irrevocable election at initial recognition for particular investments in equity instruments that would otherwise be measured at FVTPL to present subsequent changes in fair value in other comprehensive income.

Recognition and measurement

Financial assets at initial recognition are measured at its fair value of the consideration given. Subsequent to initial recognition, financial assets shall be classified at amortized cost using effective interest method, FVTOCI with changes in fair value recognized in other comprehensive income and FVTPL with changes in fair value recognized in the statement of profit or loss. The Company follows the trade date accounting for purchase and sale of investments.

4.17.2 Financial liabilities

Financial liabilities are recognized according to the substance of the contractual arrangements entered into. At the time of initial recognition, all financial liabilities shall be measured at fair value plus or minus transaction cost that are directly attributable to the issue of a financial liability. Financial liabilities shall subsequently be measured at amortized cost. Significant financial liabilities are long term borrowings, loan from directors, trade and other payables and short term borrowings.

Any gain or loss on subsequent remeasurement to fair value of financial assets and financial liabilities is taken to the statement of profit or loss in the year in which it arises.

Offsetting of financial assets and financial liabilities

A financial asset and liability is offset against each other and the net amount is reported in the statement of financial position if the Company has legally enforceable right to set off the recognized amount and intends either to settle on net basis or realize the asset and settle the liability simultaneously.

4.17.3 Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company might enter into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in the statement of profit or loss.

4.17.4 Impairment

Financial assets

A financial asset is impaired if the credit risk on that financial asset has increased significantly since the initial recognition. Loss allowance for ECL on a financial asset is recognized to account for impairment.

If a financial asset has low credit risk at the date of initial application of IFRS-9, then the Company has assumed that the credit risk on the asset had not increased significantly since its initial recognition.

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Non-financial assets

The Company assesses at each statement of financial position date, whether there is any indication that assets may be impaired. If such an indication exists, the carrying amount of such assets is reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed their respective recoverable amounts, assets are written down to their recoverable amount and resulting impairment loss is recognized in the statement of profit or loss. The recoverable amount is higher of an asset's fair value less costs to sell and value in use.

Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset's revised carrying amount over its estimated useful life. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of carrying amount of the asset had there been no impairment loss. A reversal of the impairment loss is recognized in the statement of profit or loss.

4.18 Impairment of other assets

The carrying amounts of the assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment of any asset or group of assets. If any such indication exists, the recoverable amount of that asset or group of assets is estimated and impairment loss is recognized in the statement of profit or loss.

4.19 Related party transactions

Transactions with related parties are carried out at arm's length and priced at comparable uncontrolled market price.

8.2 The Company has a finance lease agreements from conventional banks of Rs. 161.02 million (2024: Rs. 223.86 million) for vehicles. Rentals are payable in monthly/ quarterly instalments ending upto August 2028. The markup rate implicit in the lease is 3 months KIBOR + 1% (2024: 3 months KIBOR + 0.75% to 1%) p.a, which translates to effective markup ranging from 11.03% to 18.06% (2024: 22.41% to 24.16%) p.a during the year. The lease is secured by way of personal guarantees of directors of the Company and vehicle registered in the name of banks with 10% of vehicle value held as security.

8.3 The Company intends to exercise its option to purchase the leased assets upon the maturity of lease term. Taxes, repairs and insurance cost is being borne by the Company. In case of termination of the agreement, the Company has to pay the entire rentals for the unexpired period for the lease agreement.

8.4 The Company also has lease contracts for offices used in its operations. These leases generally have lease terms between 3 to 6 years. In general, the Company is restricted from assigning and subleasing the leased assets. These lease contracts include extension and termination options subject to the mutual consent of the Company and the lessors. The Company is bound by certain covenants which include but are not limited to payment of certain taxes and to exercise reasonable care.

38. FINANCIAL INSTRUMENTS

The objective of the Company's overall financial risk management is to minimize earnings volatility and provide maximum return to shareholders.

The Company's activities expose it to a variety of risks:

- Credit risk
- Liquidity risk
- Market risk

Risk Management Framework

The Board of Directors (the Board) has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies.

38.1 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties fail completely to perform as contracted and arises principally from trade receivables, loans, advances and balances with banks. Out of the total financial assets of Rs. 3,305,112,922/- (2024: Rs. 3,689,321,277/-), the financial assets which are subject to credit risk amounted to Rs. 3,302,847,206/- (2024: Rs. 3,686,821,201/-).

To manage exposure to credit risk in respect of trade receivables management performs credit reviews taking into account the customer's financial position, past experience and other related factors. Where considered necessary, advance payments are obtained from certain parties. The management has set a maximum credit period of 30 days in respect of sales to certain institutions to reduce the credit risk.

38.1.1 Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly effected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

Some of the major customer accounts for Rs. 892,542,247/- of the trade receivables carrying amount at year end (2024: Rs. 1,649,019,310/-) that have a good track record with the Company.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	2025 Rupees	2024 Rupees
Long term deposits	6,464,500	6,464,500

38.2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to manage liquidity is to ensure as far as possible to always have sufficient liquidity to meet its liabilities when due. The Company is not materially exposed to liquidity risk as substantially all obligations/ commitments of the Company are short term in nature and are restricted to the extent of available liquidity. In addition, the Company has obtained running finance facilities from various commercial banks to meet any deficit, if required to meet the short term liquidity commitments.

Exposure to liquidity risk

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the maturity date.

Financial Liabilities:	2025					
	Carrying amount	Contractual Cash flows	Six Months or less	Six to twelve months	One to two years	Two to five years
	Rupees					
Lease liabilities	105,180,060	138,700,558	31,120,790	24,076,530	38,646,049	44,857,189
Trade and other payables	931,079,209	931,079,209	931,079,209	-	-	-
Uncashed dividend warrants	22,101,080	22,101,080	-	22,101,080	-	-
Accrued markup/ profit	96,879,657	96,879,657	96,879,657	-	-	-
Short term borrowings - secured	1,485,589,729	1,485,589,729	-	1,485,589,729	-	-

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amount.

38.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing return.

38.3.1 Currency risk

Currency risk is the risk that fair value or future cash flows of a financial instrument, will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly where receivables and payables exist due to foreign currency transactions. The Company is not significantly exposed to currency risk.

38.3.2 Interest rate risk

At the reporting date the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

	2025	2024	2025	2024
	Effective rate		Carrying amount	
	(in Percent)		(Rupees)	
<u>Financial liabilities</u>				
<u>Variable rate instruments</u>				
Lease liabilities	11.03% to 18.06%	22.41% to 24.16%	105,180,060	86,521,630
Short term borrowings	10.09% to 23.24%	17.59% to 24.74%	1,485,589,729	11,854,941,709
			1,590,769,789	11,941,463,339

Fair value sensitivity analysis for fixed rate instruments

The Company is not exposed to interest rate risk for fixed rate instruments as it does not hold any such fixed rate financial instruments.

Cash flow sensitivity analysis for variable rate instruments

If KIBOR had been 1% higher/ lower with all other variables held constant, the impact on the profit before tax for the year would have been stated below. The analysis is performed on same basis for 2024.

	Increase/ decrease in %	Effect on profit before tax (Rupees)
As at 30 September 2025		
Cash flow sensitivity-Variable rate financial liabilities	1%	15,907,698
As at 30 September 2024		
Cash flow sensitivity-Variable rate financial liabilities	1%	119,414,633

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets/liabilities of the Company.

38.3.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company is not exposed to other price risks.

38.4 Fair value of financial instruments

The carrying values of the financial assets and financial liabilities approximate their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at 30 September 2025 the net fair value of all financial instruments has been based on the valuation methodology outlined below:

Long term deposits

Long term deposits do not carry any rate of return. The fair value of these has been taken at book value as it is not considered materially different and readily exchangeable.

Non-current liabilities

For all non-current liabilities the fair values have been taken at book values as these are not considered materially different based on the current market rates of return and re-pricing profiles of similar non-current liabilities.

Other financial instruments

The fair values of all other financial instruments are considered to approximate their book values as they are short term in nature.

39. CAPITAL RISK MANAGEMENT

The Company's objectives for managing capital are:

- i) to safeguard the Company's ability to continue as a going concern; and
- ii) to provide an adequate return to shareholders by pricing products commensurately with the level of risk.

The Board's policy is to maintain an efficient capital base so as to maintain investor, creditor and market confidence and to sustain the future development of the business.

The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares, or sell assets to reduce debts.

Consistently with others in the industry, the Company monitors capital on the basis of the net debt-to-equity ratio. This ratio is calculated as net debt divided by equity. Net debt is calculated as total debt (as shown in the statement of financial position) less cash and cash equivalents. Equity comprises share capital, reserves, loan from directors and retained earnings.

During 2025, the Company's strategy, which was unchanged from 2024, was to maintain the net debt-to-equity ratio upto 3.50 times, in order to secure access to finance at a reasonable cost.

	2025 Rupees	2024 Rupees
The net debt-to-equity ratios at 30 September 2025 and at 30 September 2024 were as follows:		
Total debts	1,306,745,099	11,341,086,958
Less: Cash and cash equivalents	(1,213,631,819)	(424,708,347)
Net debt	<u>93,113,280</u>	<u>10,916,378,611</u>
Total equity	<u>12,019,653,448</u>	<u>10,209,456,808</u>
Net debt-to-equity (Times)	<u>0.01</u>	<u>1.07</u>

The decline in the debt-to-equity ratio is attributable to a significant reduction in short-term borrowings.

40. PLANT CAPACITY AND ACTUAL PRODUCTION

	2025	2024
Designed crushing capacity	Metric Tons/day	30,000
Capacity on the basis of operating days	Metric Tons	3,120,000
Sugarcane crushed	Metric Tons	2,501,855
Sugar production from cane	Metric Tons	241,471

40.1 The plant capacity was under utilized by 20%, which is primarily due to routine stoppages and shortage of sugarcane.

41. EVENTS AFTER THE STATEMENT OF FINANCIAL POSITION DATE
